Waiora's **Skincents** solutions combine time-tested ingredients, proven cosmeceutical technologies and a simple 4-step approach—**cleanse, exfoliate, nourish and treat**—to restore your appearance and confidence. The story is as much about what's in the product as what's not. This line combines the best of what Mother Nature has to offer—soothing botanicals, cleansing extracts, exotic sea minerals, mineral-rich clays, healing emollients, nourishing vitamins and powerful antioxidants.

What you won't find are cheap fillers, toxins and other synthetic and harmful ingredients like dimethicone, cyclomethicone, triethanolamine, butylene glycol, propylene glycol, polyethylene glycol, urea, mineral oil, sodium lauryl sulfate, fragrances and artificial colors.

"I've been telling everyone I know about **Skincents**. I am also very impressed with what's NOT in the products. Thank you for developing a line that I feel good about applying to my skin." —Nancy N.
