WHY CLEANSE?

No other aspect of skin care is quite as basic (or as important) as this one. Cleaning the face sets the stage for everything else that you will do to it (i.e., exfoliate, moisturize, repair, etc.) As such, it's essential that the cleansing products you use be gentle. Over-cleansing or using cleansers that are too drying is a major cause of irritation, inflammation, dry patches and redness. Not cleansing the skin well enough can clog pores and leave a residue on the face. Using a cleanser that leaves a greasy film can clog pores and prevents moisturizers from being able to absorb. The few extra minutes it takes you to clean your face properly will be reflected in the health and appearance of your skin.

Maximize your skin revitalizing efforts with these other Skincents products:

- *Refining Microderm Treatment*
- *Firming Facial Mask*
- *Revitalizing Facial Serum*
- *Regenerating Wrinkle Treatment*

Directions: Wet face and squeeze cleanser in your hand. Rub hands together and apply in gentle circular motions. Rinse with warm water and pat your skin dry with a soft, clean towel. Follow with Waiora's *Refining Microderm Treatment*, *Firming Facial Mask* or *Revitalizing Facial Serum*. For optimal results, use morning and night.
